PROFESSIONAL SUMMARY

Self-taught MERN Stack Developer with industry-certified full-stack training, bringing a practical, project-first approach to building scalable full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proven ability to build reusable component libraries, integrate RESTful APIs, and implement secure JWT authentication. Experienced across the full development lifecycle, from UI design to backend architecture and cloud deployment using Vercel and Railway. Proficient in Agile development practices and delivering production-ready features.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Axios, Context API, Tailwind CSS, Bootstrap, Material UI, Responsive Web Design

Backend: Node.js, Express.js, RESTful API Development, JWT Authentication, Role-Based Authorization

Database: MongoDB, Mongoose

Tools & DevOps: Redux, Git, GitHub, Docker, CI/CD (GitHub Actions), Vercel, Railway, Stripe, Cloudinary

WORK EXPERIENCE

Frontend Developer Intern, ZecData, Indore, Madhya Pradesh

Jan 2026 – Mar 2026

- Contributed to 2+ live production projects, developing React.js features that directly impacted end users.
- Engineered reusable UI components, reducing code duplication and improving overall code maintainability.
- Integrated RESTful APIs and resolved real-time production bugs, enhancing application performance.

Freelance MERN Stack Developer, Indore (Contract-Based)

Apr 2026 – Jun 2026

React.js | Node.js

- Built and modified reusable UI components, improving code maintainability and development speed.
- Integrated RESTful APIs and implemented frontend-backend communication for dynamic data handling.
- Resolved application bugs and performance issues, improving stability and user experience.
- Assisted in maintaining Node.js and Express.js backend modules and API endpoints.

PROJECTS

Foodzila – Full-Stack Food Ordering Application | *React.js, Node.js, Express.js, MongoDB, JWT*

- Architected and deployed a complete food ordering platform with role-based access control for admin and user roles.
- Developed RESTful APIs for cart management, order processing, and product catalog operations.
- Designed MongoDB schemas optimized for scalable data storage and efficient query performance.
- Built a full order lifecycle system covering Processing, Delivered, and Cancelled states with real-time status updates.

Vastrika – E-Commerce Web Application | *React.js, Express.js, Tailwind CSS, Node.js, MongoDB, Stripe, Cloudinary, JWT, REST API*

- Developed a full-stack e-commerce platform featuring product filtering, sorting, and category-based search functionality.
- Integrated Stripe and Cash-on-Delivery payment gateways, enabling secure and seamless online transactions.
- Implemented user authentication and session management to ensure secure access across the application.
- Designed a fully responsive UI using Tailwind CSS, ensuring a consistent experience across all device sizes.

EDUCATION

Full Stack Web Development — Apna College

2025

Bachelor of Commerce (Taxation), Bhopal School of Social Sciences, Bhopal (M.P.)

2023
